Measure 4 – Advanced Programs

Ability of completers to be hired in positions for which they have prepared.

Employment data shows the following:

M.Ed. in Educational Leadership (n=23)

- Seven program completers (30%) are currently serving in teacher roles. Of the seven, four are actively pursuing administrative positions. Of the remaining three, one is pursuing a terminal degree, and the remaining two indicate that they are happy in their current roles.
- Eight program completers (35%) are currently in assistant principal positions.
- Eight program completers (35%) are currently serving as instructional or professional development coaches (5) and the remaining three serve in director roles, while one is serving as a dean of students. Three of the current instructional/professional development coaches indicated that they are currently seeking an administrative position.

Ed.S. in Educational Leadership (n=4)

- Three program completers of the Ed.S. program are currently serving as assistant principals while one has remained a teacher.
- In answering whether they were actively pursuing an administrative district level position, one of the assistant principals indicated that they are and the remaining three were not currently seeking a district level position.
